Started this year and currently a work in progress, the Downtown Arts Collective is exploring ways to support local artists, performers and creatives in the Downtown community.

WHY: The Downtown ACD identified a need that more organized support is needed for artists and creatives in events/pop-ups, collaborative opportunities, business development, and networking.

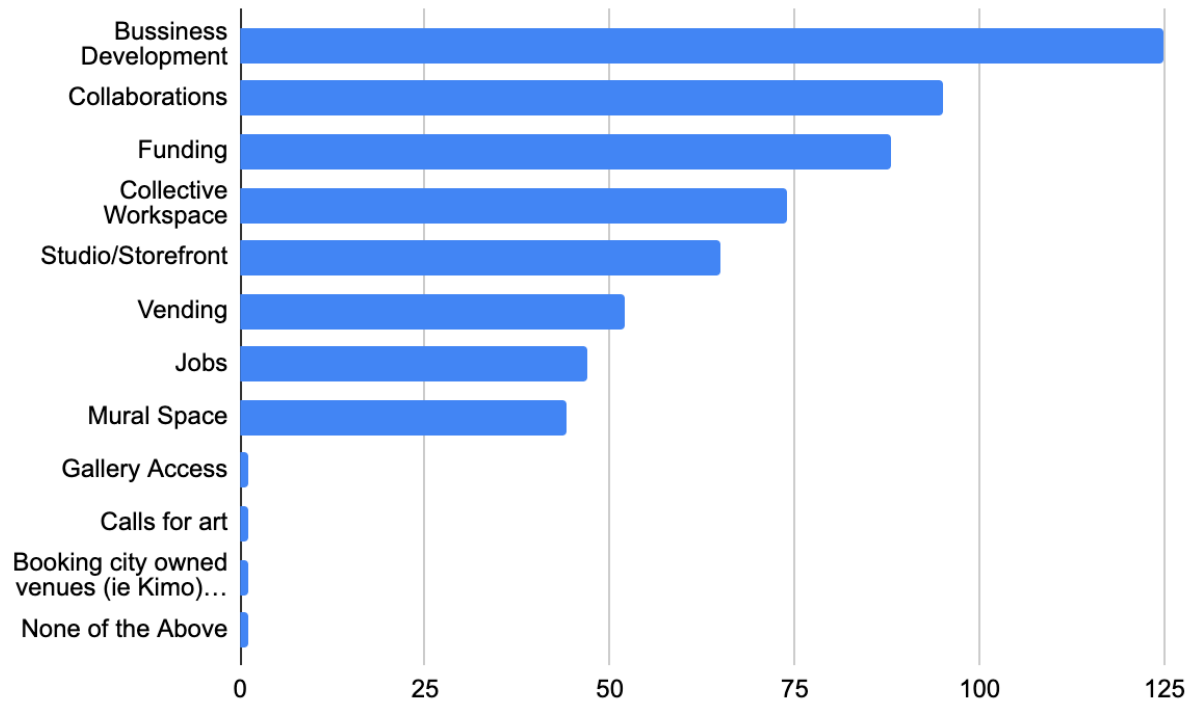

WHAT THIS MEANS: awareness on processes for attending/creating community events, navigating participation and organization of events and pop-ups, connecting members to networks, resources, education and business development opportunities.

Vision Statement: Our vision is to provide opportunity, access and business development for artists of all media through connection, education and communication.
